PROJECTS

Lawschool Fitness System A comprehensive web platform built to manage all business operations for a fitness company, supporting a client-facing mobile app.

- **Main E-Commerce Website** (Next.js, Material UI, Firebase)
 - Developed the public-facing e-commerce and onboarding portal for client acquisition, featuring user authentication, secure package purchasing, and a trainer application form.
- **Innovator (Trainer) Portal** (React.js, Shadcn, Firebase)
 - Built the dedicated portal for 'Innovators' (Trainers) to manage their assigned clients, create and distribute custom workout/meal plans, and set their coaching availability.
- **Affiliate System** (React.js, Shadcn, Firebase)
 - Developed the affiliate marketing portal from the ground up, allowing partners to manage referral codes and track commission performance to drive new user growth.
- **Central Admin Dashboard** (React.js, Shadcn, Firebase)
 - Constructed the main dashboard for business owners to provide full control over the ecosystem, including financial reporting, user management, and client-trainer assignments.
